

Defects List						
1	Splash Screen animation is not working i.e. Bike Ride image is static					
2	Unable to swipe left in onboarding tutorial for all the 3 screens					
3	In case user clicks NEXT in onboarding tutorial, there is no going back to previous screen					
4	After going through tutorial, it is not clear that what essentials are instant delivered e.g. eatables, clothes etc					
5	Contact No text field is accepting more than 10 digit without any error message					
6	In contact no fiels, there is no restriction for the start digit to be entered from 6 - 9 as per Indian standard					
7	Contact No text field is accepting less than 10 digit without any error message					
8	Verification of OTP is taking more than 2-3 minutes, it should be instant verified after correct OTP is entered					
9	In Personal Details Form, Autopopulated Date is quite confusing, either it should have some label for which date we need to select from date picker i.e. Date Of Birth, etc					
10	Search results are not showing accurate results					
	Search	Results				
		Vegetables		Vegetable Chopper, Juicer		
		Soft Drinks		Nivea Cream, Colgate Toothbrush		
11	In Chat Box, Avatar should have some name, to initiate conversation					
12	After initiating conversation by the user, there is no instant reply to the user if he/she is seeking for the help/guidance					
13	User chatbox colour should not be black but complementary to the avatars chat box colour					
14	Categories on the left side menu bar requires to be redefined with proper names, naming conventions can be misleading					
15	To differentiate Categories form the rest of the oprions it can be right aligned with same color panel, Orange not required					
16	Instead of each & everything on single page ,App should be properly utilized with multiple screens to avoid confusion					
17	Nav Bars should be implemented instead of endless scrolling, user is forgetting what he/she needs to buy					
18	When adding to carts, processing to checkout page >> Clicking on Add More leads to homepage that breaks the whole flow					
19	Though order is successfully submitted, there is No info for when th order will be delivered (No Date, Day, Time)					
20	No Payment methods are present in the Instant Delivery App					
21	Home page screen should be retracted to Shop by Category feature, as the scrolling down is creating confusing among the user					
22	Shop by Brands is not displaying know brands, thus trust of the user cannot be gained. He/She will google to confirm if the Brand (Veba, Roosta, Keya) exists or not and in case existism which type of product they are for					
23	Discount offered must be on some specific occassion. Also, for all the products at the same time and not for fewer products at a time					
24	Plus icon should not be in black color, instead there should be a proper color scheme					

25	It should display the total of min order that could be placed while ordering and adding to cart					
26	Original Price should be on the left of the image while discounted price should be on the right hand side of the image					
27	Discount offered should be same as the category wise and not the individual product wise					
28	Either product name should be labelled in hindi or in proper english to perform effective sorting					
29	Sorting option should also include: Z to A					
30	In case of veggies or eatables, every image should depict quantity and that resembles market prize too					
31	When trying to wishlist a product, mobile phone is vibrated though heart icon color is changed too					
32	Few images are not present and instead a default icon on the image is visible					
33	Filter feature should display brands specific to products otherwise that could lead to time waste of the user when No search results will be there for that particular category					
	e.g. Applying filter of brand of Ferreo Rocher in Masale will lead to No products					
34	Price Range Filter should remove the Slider instead provide some options for different prices worth the total of display of the product					
35	Discount filter option should remove 60% and above as there is discount provided as such					
36	Discount filter option should add 10% and below as there is discount provided in Baby Care Category					
37	Search field in specific category page should search for category specific products only					
	e.g. Potato should not provide any search results in Soft Drink category					
38	Instead of images there should be Icons on the Category page listing all the categories					
39	Eatables and cleansing materials should be segregated from each other and it requires some other page to display that includes personal hygiene as well					
40	To Select Country, though only 1 option is present, radio button requires to be selected with clicking on OK					
41	After clicking on Map selection for Address, Map Feature is not working					
42	Unable to view any transactions in My Wallet Page
